

UC in Your District

The University of California's reach goes well beyond its 10 campuses, five medical centers and three national laboratories. The University's presence is felt in each of California's 58 counties through a wide array of exemplary community partnerships, enriching cultural resources and innovative research programs. From health-care education for rural physicians to agricultural research advice for local farmers to college preparation efforts in nearly every public school, UC has a direct influence in your community. Find out more about UC programs in your district by visiting:

www.universityofcalifornia.edu

UC DAVIS MEDICAL CENTER

The UC Davis Medical Center is the region's only academic medical center and is a fully accredited, 457-bed hospital. UCD Medical Center is the sole Level 1 Trauma Center serving the residents of Humboldt, Lake and surrounding counties. The UC Davis Health System is also a leader in the field of Telemedicine. UCD Medical Center has expanded the scope of its services to electronically meet the needs of the Northern California region, by linking remote hospitals and primary care practices to the medical center. This innovative program allows physicians in remote areas of the North State to care for their patients locally.

UC AND THE WINE INDUSTRY

The wine industry in this district is dependent on UC Davis' pioneering technology and innovative cultural practices. Selection of better yielding clones of chardonnay at UC fueled a dramatic increase in planted acreage since 1960, bringing its current value to \$300 million. Vintners also rely on UC's network of agricultural advisors at offices in Napa, Sonoma, Lake, Mendocino and Humboldt Counties in District 2. The impact of the recently established UCD Mondavi Institute for Wine and Food Science will be felt throughout District 2. The Institute will house the largest and most prestigious wine and food science academic program in the world.

UCSF MEDICAL CARE

The UCSF Medical Center and the hospitals operated by and affiliated with UCSF are among the world's greatest health care institutions. UCSF Medical Center provides services throughout the district. UCSF's Intensive Care Nursery (ICN) Follow-Up Program assesses the neurodevelopmental progress of infants by providing parent support after discharge, early identification of developmental disabilities and liaison with community physicians and agencies. ICN satellite clinics are located in Eureka and Willits in District 2.

The Bay Area Social Services Consortium (BASSC) is composed of county Social Service Directors and the graduate social work programs at UC Berkeley, CSU Sacramento, CSU San Jose and CSU San Francisco. BASSC develops educational, applied research and policy development programs in collaboration with county agency administrators and staff. <http://cssr.berkeley.edu/bassc/>

The MESA California Community College Program (Mathematics, Engineering & Science Achievement) increases the number of math and science majors who successfully transfer and receive university degrees and includes a site at **Mendocino College. MESA Success**

Through Collaboration (STC) works with American Indian tribes to meet the same goal with respect to Native Americans. <http://mesa.ucop.edu>

The UC Davis Natural Reserve System Bodega Marine Laboratory has emerged in recent years as one of the Pacific Coast's leading laboratories, achieving international recognition in several areas of marine science. Located

on **Bodega Head in Sonoma County in District 2.** <http://www.bml.ucdavis.edu>

UC Cooperative Extension advisors in Humboldt, Mendocino, and Sonoma counties teach landowners how to improve forest roadways to reduce water pollution, and how to recognize symptoms of sudden oak death. High school teachers get an understanding of forestry at UC's **Forestry Institute for Teachers** summer camp. **UC's Hopland**

Research and Extension Center conducts long-term research on native rangelands, watersheds and wildlife. <http://ucanr.org>

UC Davis's Oiled Wildlife Care Network strives to ensure that wildlife exposed to petroleum products in the environment receive treatment. The project's services are offered at the **Bird Rescue Center in Santa Rosa and a CSU Humboldt site.** www.vetmed.ucdavis.edu/owcn

VA Northern California Health Care System is an affiliate of the UC Davis Medical Center, and provides a full range of medical care to over **417,000 veterans** in Northern state region. The system includes rehab and extended care facilities, outpatient clinics and day treatment centers.

<http://www.va.gov>

UCSF's Family Practice Residency program at Sutter Medical Center in Santa Rosa, provides a host of community medical services to **underserved populations in District 2** - such as HIV treatment and education and targeted health outreach to Latinos and other medically underserved populations. <http://www.fpresidencysantarosa.org>

The Mental Health Research Group at UC Berkeley's School of Social Welfare works with California counties to pursue timely research on issues in mental health such as residential care, psychiatric emergency services and homelessness. <http://socialwelfare.berkeley.edu>
