

UC in Your District

The University of California's reach goes well beyond its 10 campuses, five medical centers and three national laboratories. The University's presence is felt in each of California's 58 counties through a wide array of exemplary community partnerships, enriching cultural resources and innovative research programs. From health-care education for rural physicians to agricultural research advice for local farmers to college preparation efforts in nearly every public school, UC has a direct influence in your community. Find out more about UC programs in your district by visiting:

UCLA MEDICAL CENTER

UCLA Medical Center provides services throughout District 32 and is known worldwide for its pioneering technological contributions, including advancements in organ transplantation, artificial insemination and ultrasound and is ranked # 1 in the West by U.S. *News and World Report's* annual survey of "America's Best Hospitals." More than 300,000 people – **including a disproportionate share of the state's poor and uninsured** – come to UCLA Medical Center each year.

UCLA's Mattel Children's Hospital offers a full range of specialty health services for children.

UCR'S EASTSIDE COMMUNITY COLLABORATIVE

UCR's Eastside Community Collaborative **combats the effects of poverty and violence through education, mentoring and arts.** The Collaborative was formed in response to escalating violent crime rates. Former UCR Chancellor Raymond Orbach convened civic leaders to build solutions aimed at families and youth, in order to help heal a traumatized community. Today, the Collaborative includes the **"Safe Havens" after-school program at several area schools, the Multicultural Arts Center (MAC) at the Cesar Chavez Community Center** and the **"Youth's Corridor to the Future Program."**

ENLACE (Engaging Latino Communities for Education)

ENLACE is a UC Santa Barbara sponsored initiative aimed at strengthening the educational pipeline and increasing opportunities for Latino's to enter and complete college. The program is administered at several sites in Oxnard.

UC Riverside's CE-CERT program contributes to improved environmental quality and energy efficiency through interdisciplinary research and by providing educational opportunities for the next generation of engineers, scientists and policy-makers. <http://www.cert.ucr.edu>

The Community Teaching Fellowships in Math and Science Program works to improve math and science education in the **Inland Empire.** Affiliated with the National Science Foundation and the UC Riverside School of Education, the program works with **Riverside Unified Schools and San Bernardino Unified Schools.** The program works directly in the classroom to **improve teacher knowledge and student achievement in math and science.** <http://www.alphacenter.ucr.edu>

The Puente Project runs programs at 51 community colleges and 35 high schools throughout California to increase the enrollment and retention of educationally underserved students in four-year universities. Puente works with **Chaffey**

Community College. To date, Puente has provided mentoring, teaching, and counseling for over 20,000 under-represented students. Puente students graduate from 4-year universities at twice the average rate. <http://www.puente.net>

California Partners for Advanced Transit in Highways (PATH), at the UC Institute of Transportation Studies brings together faculty and students with private industry and state/local

agencies to develop the research technologies that will improve California's transport systems – including developing solutions for the state's public transit challenges.
