- 89.2% of transfer students graduate in four years or less
- 95.1% of transfer students return for second year

Housing

- 3 years guaranteed for freshmen, 1 year for transfer students
- 92.4% of freshmen live on campus
- 37.9% of all students live on campus

Admit Rate figures as of July 2008

Five Facts

You Might Not Know About UCLA

1 Housing is a priority. UCLA is the only UC campus that guarantees three years of on-campus housing for incoming freshmen. Transfer student housing is secured for one year.

2 UCLA Math Department adds up to greatness. UCLA's Mathematics Department received the American Mathematical Society's 2007 Award for an Exemplary Program of Achievement in a Mathematics Department. The society declared it "an outstanding model of all that a mathematics department can be."

3 Undergraduate research opportunities abound. The Student Research Program gives students the chance to work with world-renowned scholars in the lab and in the field. Each year, hundreds of UCLA students present the results of their research at conferences through the country.

4 Internships give undergraduates hands-on experience. Since 1966, the UCLA Career Center's Internship & Study Abroad Service has helped more than 20,000 students find relevant work in the United States and abroad. The center advises some 4,000 students each year.

5 International education brings the world into focus. UCLA's International Institute, a division of the College of Letters and Science, is one of the world's premier centers of international study, offering interdepartmental degrees and education abroad. Its research focuses on major world regions and on global issues that cut across geographical boundaries.
